Innovative Solutions Partner

HQE Systems, Inc. is committed to augmenting and advancing the capabilities of our government to successfully fulfill its objectives and missions.

WHAT WE DO

HQE Systems (HQE) facilitates mission success for our clients by delivering precisely targeted solutions that are swiftly and seamlessly implemented. As a reliable partner with security-cleared personnel and facilities, HQE offers comprehensive solutions across all levels of classified environments.

WHO WE SERVE

As a leading provider of advanced technology solutions, HQE delivers specialized services to an array of esteemed clients including the federal government (DoD, DHS, DOS, DOI), local governmental entities (cities and counties), higher education institutions, K-12 school districts, healthcare facilities, utility sectors, the oil and gas industry, and major corporate enterprises.

WHAT WE PROVIDE

Mass Notification Software (SaaS)

Utilizing AI and ML, the provided Mass Notification Software ensures secure, scalable communications essential for military operational efficiency.

Mass Notification Hardware

Versatile fixed and mobile Mass Notification Hardware solutions are designed for reliable alerting in critical indoor and outdoor military environments.

Advanced Systems Integrations

Specializing in the integration of life safety and electronic security systems to optimize operational synergy and security within military installations.

Integrated Electronic Security Systems

Comprehensive security solutions include CCTV, ACS, and IDS that are custom-engineered to meet the rigorous security demands of military applications.

Project Management Services

Expert Project Management Services feature skilled personnel capable of leading and executing major military and defense projects efficiently.
