“It’s Not IF, but **WHEN AN Active Shooter Incident Happens** On Your Campus...”  
You’ve got minutes. Maybe less. Will your system work when it matters most?

*You have a mass notification system...*

*But you’re not 100% sure if it actually works across every building, every channel, every second.*

*You’ve patched things over the years — different sirens, PA, SMS vendors...*

*But is it unified? Compliant?  
Tested under real-world threats?*

## HQE’s No-Cost Threat Assessment

Delivered by Special Forces, Law Enforcement, and Certified EMNS Engineers with real-world operational experience.

**100% FREE**

Expires in 30 Days

*This free offer is funded by our Veterans of USA Grant Program, only available through HQE’s Fiscal Year-End*

A full Mass Notification Process Survey customized to your campus layout

Gap analysis across sirens, SMS, PA, digital signage, apps, beacons

Time-to-alert audit: Are your systems fast enough to save lives?

Recommendations for unification, compliance, and upgrade options, using what you already have.

## Why HQE Systems?

- ✓ Veteran-Owned. Nationally Certified. Operationally Proven.
- ✓ Experts in ALL major mass notification platforms (not just one vendor)
- ✓ Trusted by K-12, Universities, Federal and DoD clients nationwide

## Why Now?

**This Isn’t Sales. It’s Safety.**
